

A

precedent

Consider Andrew and Bob, who work in the same field. They meet once a week for coffee. Every week, Bob buys and brings coffee to the meeting for both of them. How likely is it that

reciprocity

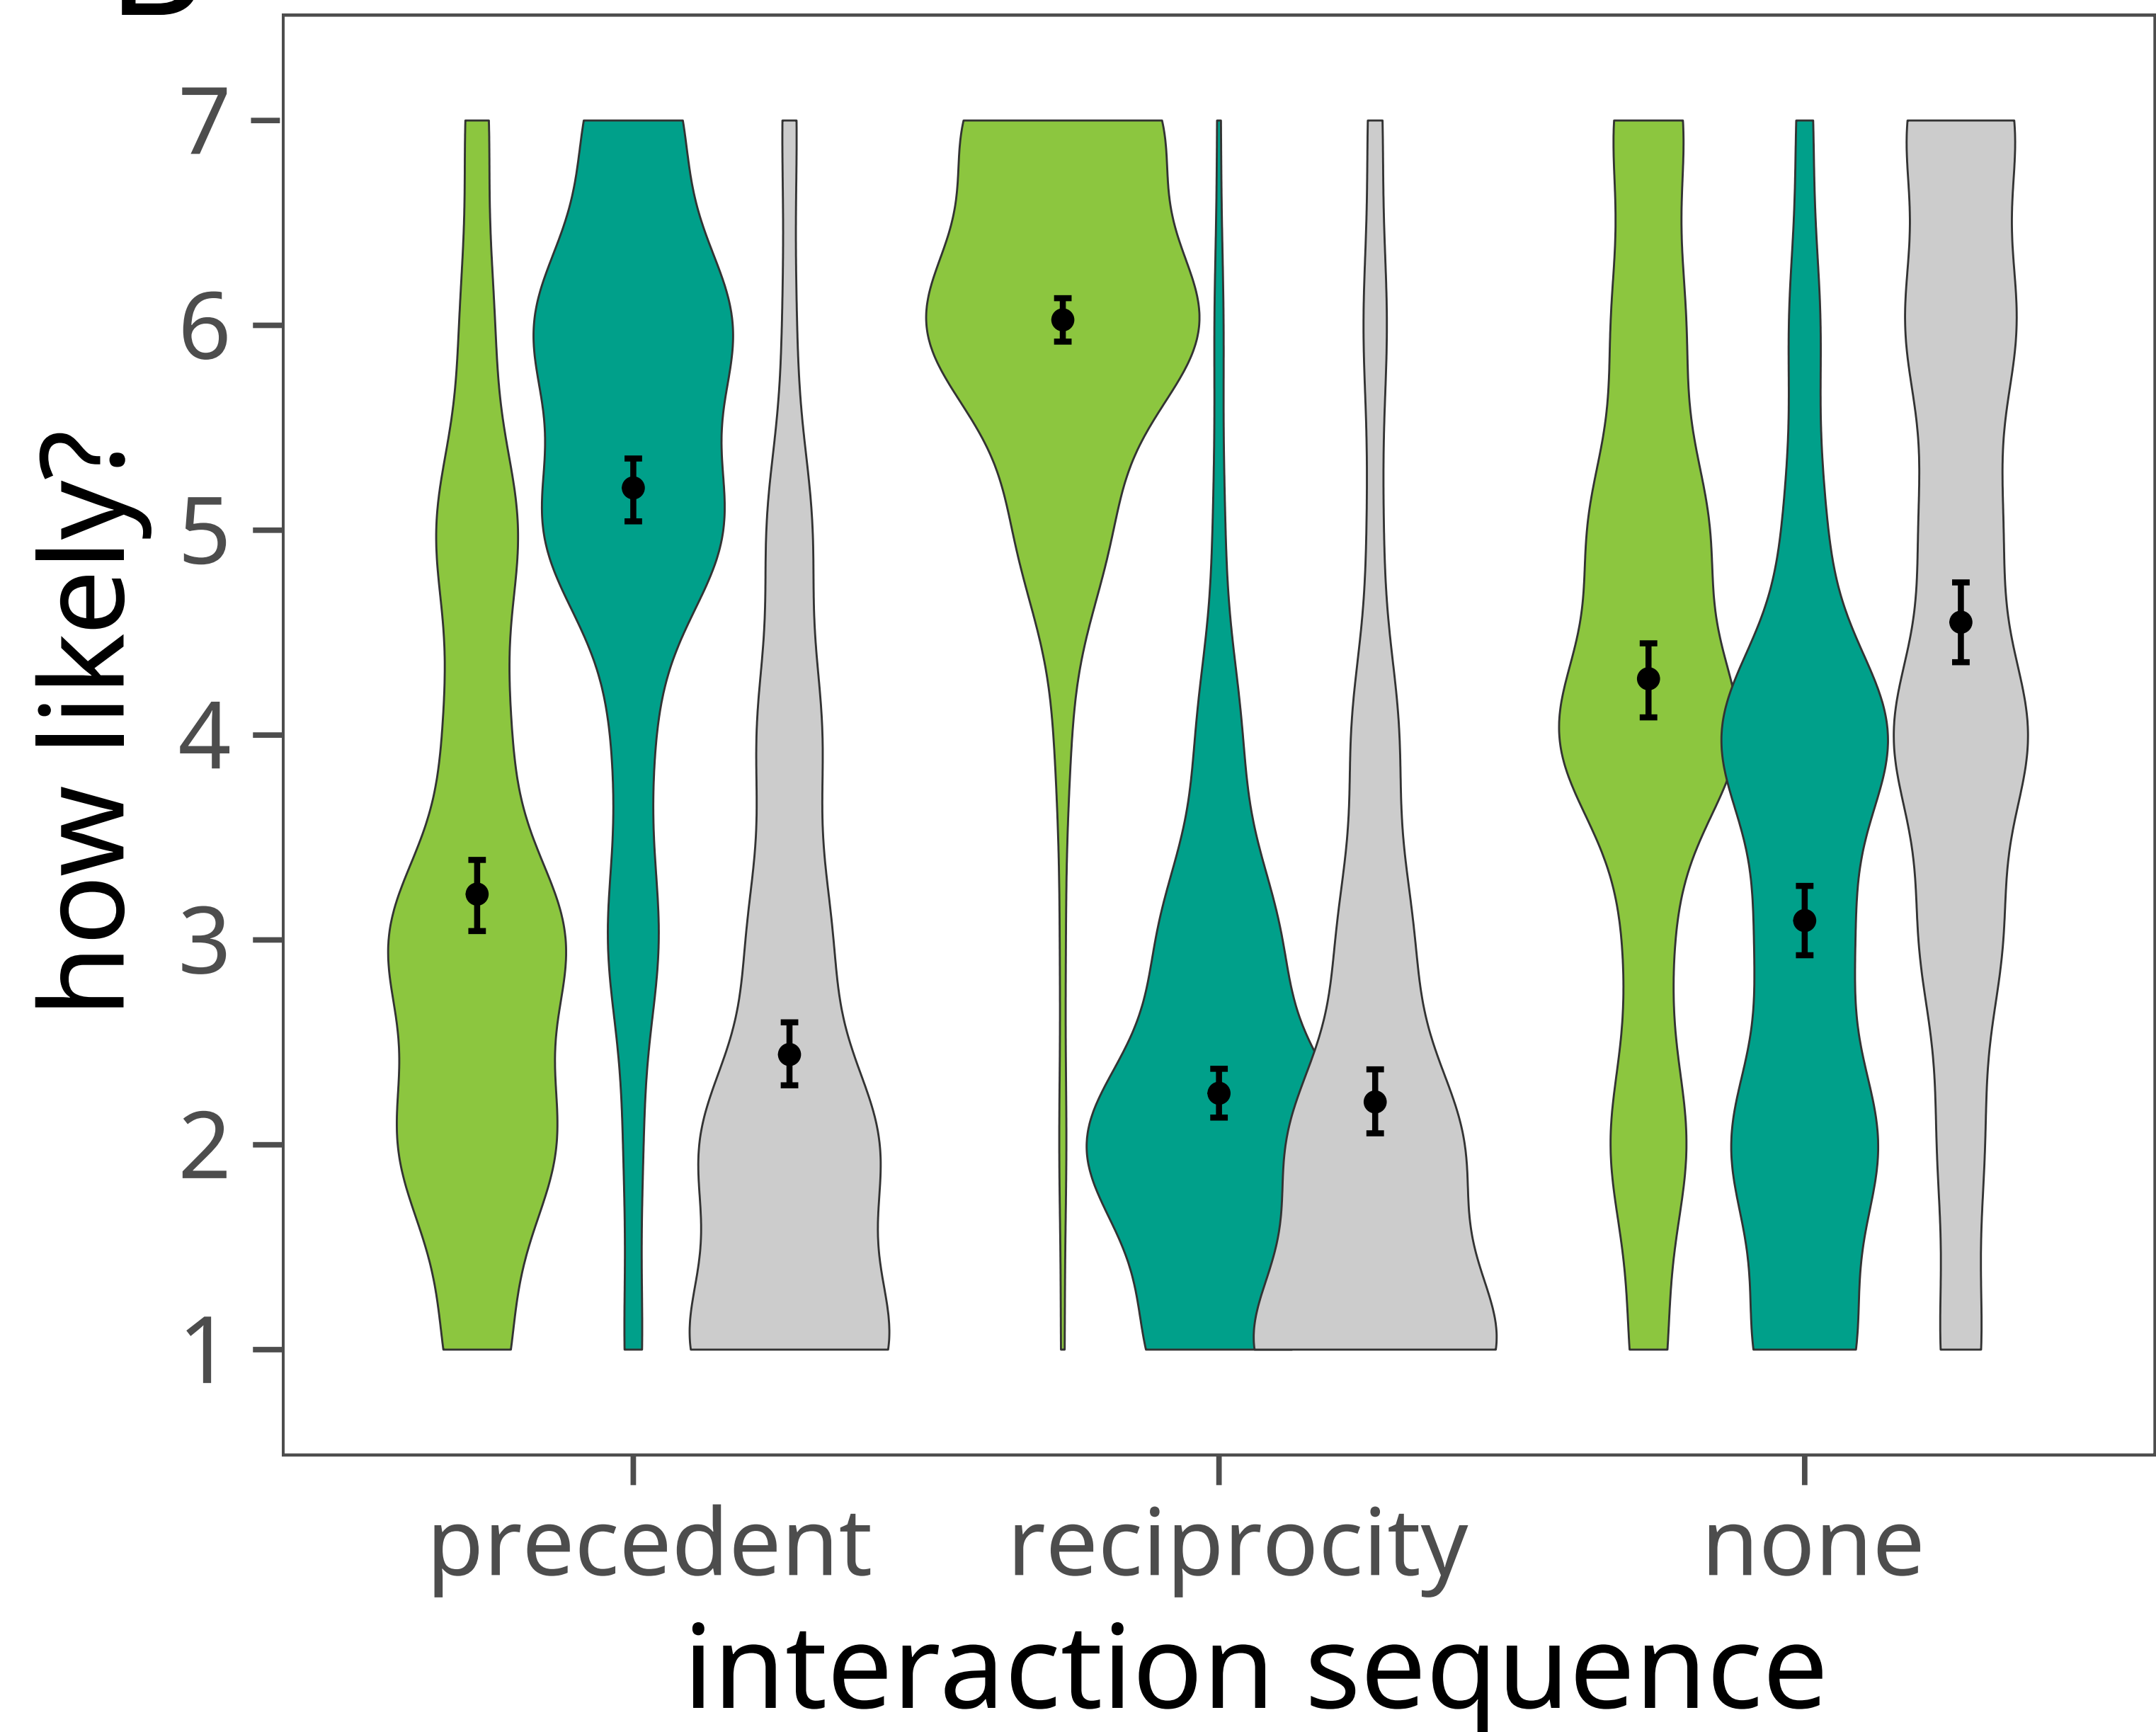

Consider Andrew and Bob, who work in the same field. They meet once a week for coffee. Every week, Bob and Andrew alternate who buys and brings coffee to the meeting for both of them. How likely is it that

no interaction

Consider two people, Andrew and Bob, who work in the same field, and frequent the same coffee shop. Andrew buys coffee for himself once a week before heading into work. Bob buys coffee for himself once a week before heading into work. How likely is it that

Andrew and Bob are in a symmetric relationship.	Extremely unlikely (1) - Extremely likely (7)
Andrew and Bob are in an asymmetric relationship.	Extremely unlikely (1) - Extremely likely (7)
Andrew and Bob are not in any relationship.	Extremely unlikely (1) - Extremely likely (7)
